

YULIIA TOPOLSKA

Front End Developer

topolsk92@gmail.com

+38 (066) 867-32-65

Kyiv, Ukraine

Profile

I'm self-motivated, creative, goal and detail-oriented front end developer with half a years of experience with HTML, CSS, Bootstrap 5 and JavaScript.

Created over 20 responsive websites and web applications, some of which you can find in my portfolio. Almost all portfolio projects are personal, including design. I'm currently focused on getting to know the React ecosystem, including Node.js.

I am looking for a front end developer position in a company that will need my skills, abilities and experience to develop quality solutions and ensure the success of the company.

Projects

NEW YEAR RESOLUTIONS

On the site, you can add New Year resolutions, cross them out and delete them. There are also a New Year countdown, the ability to play a New Year's song and when the New Year comes, a congratulation will appear!

The website is responsive and was written using HTML,CSS and JavaScript.

Code: <https://glitch.com/edit/#!/jtopolska-weather>

CALCULATE THE FINAL AMOUNT

With this web application, you can easily split the total bill among all your friends. And on the second tab you will find a convenient calculator to find out the final product price.

The web app is responsive and was written using HTML,CSS and JavaScript.
