Why me

I'm highly motivated, creative, goal and detail-oriented front end developer with more than half a year of experience with HTML, CSS, Bootstrap and JavaScript.

Created over 20 responsive websites and web applications, some of which you can find in my portfolio. Almost all portfolio projects are personal, including design. I'm getting to know the React ecosystem, including Redux and Node.js.

I am looking for a front end developer position in a company where my skills, abilities and experience will be useful and will help to develop quality solutions and ensure the success of the company.

Skills & Tools

HTML 5	CSS 3	BOOTSTRAP 5	FIGMA	API
JAVASCRIPT	GSAP	GITHUB	GLITCH	
ENGLISH: INTERMEDIATE				

Experience

Front End Developer May 2022 - Present
Freelance

Projects

NEW YEAR RESOLUTIONS	On the site, you can add New Year resolutions, cross them out and delete them. There are also a New Year countdown, the ability to play a New Year's song and when the New Year comes, a congratulation will appear! The website is responsive and was written using HTML,CSS and JavaScript. Link: https://jtopolska-ny-countdown.glitch.me Code: https://glitch.com/edit/#!/jtopolska-ny-countdown
WEATHER WEB APPLICATION	Enter any city in the input field or press the geolocation button and find out the weather for today and the next 3 days. The web app is responsive and was written using HTML,CSS, JavaScript and API. Link: https://jtopolska-weather.glitch.me Code: https://glitch.com/edit/#!/jtopolska-weather
CALCULATE THE FINAL AMOUNT	With this web application, you can easily split the total bill among all your friends. And on the second tab you will find a convenient calculator to find out the final product price. The web app is responsive and was written using HTML,CSS and JavaScript. Link: https://jtopolska-total-amount.glitch.me Code: https://glitch.com/edit/#!/jtopolska-total-amount
